

## **April to June 2015 Quarter Coal Price Negotiation**

**29 April 2015**

Price negotiations for the April to June 2015 quarter for metallurgical coal exports from Wesfarmers Resources' Curragh mine in Queensland's Bowen Basin have now been concluded with the majority of customers.

For the April to June 2015 quarter, the weighted average US\$FOB for new contract prices of Curragh metallurgical coal (hard coking, semi coking and PCI) will decrease by approximately six per cent as compared to the January to March 2015 quarter prices.

Approximately 70 per cent of deliveries in the April to June 2015 quarter are forecast to be at the new contract prices with the balance at carry over prices, and subject to actual contract deliveries for the April to June 2015 quarter.

Wesfarmers Resources Managing Director, Stewart Butel, said the coal pricing outcome for Curragh's range of metallurgical coals was in line with recent market price settlements.
